## 3<sup>rd</sup> CRAICC–PEEX Workshop

### Climate Change for Arctic Seas and Shipping

will be held 24-25 August 2015 in  
Copenhagen, Denmark

#### The topics of this workshop are:

- estimating consequences of climate change for the Arctic region on seas and shipping and effects of ship emissions on the environment and climate
- estimating frequency, spatio-temporal distribution and impact of extreme weather events on shipping traffic
- improving satellite monitoring and modelling of ice formation and movement in areas of the Arctic shipping routes
- developing approaches to environmental challenges due to possible increase in Arctic shipping

We invite all doing research in fields related to these topics to deliver presentation at the workshop.
